1 Our business model: Affordable Luxury

Purcari is positioned at the intersections of three themes:

- **Modern winemaking:** the company is a brand, as opposed to *appellation*-centric and runs a cost-efficient business.
- **Affordable luxury:** as an aspirational brand, Purcari wines are an example of affordable luxury, building on a heritage dating back to 1827 and ranking among the most awarded wineries in Europe.
- **Differentiated marketing:** the company is not afraid to be quirky about the way it approaches marketing, prioritizing digital channels and focusing on engaging content as opposed to traditional advertising.

1 Topping competition at engagement and quality

#1

- We remain **obsessed with the quality of our wines**, which pays off in excellent consumer feedback.
- In our core premium segment, 30-60 RON per bottle shelf price, we dominate the category with **13 best-rated wines in Vivino's top 25**.
- Negru de Purcari 2015 - among the **top 1% of all wines in the world**.
- We remain convinced, it is the **product that will make the difference** in the mid and long term with consumers, so we are focusing on making exciting wines that capture people's imagination.

2 Key operational highlights for 3Q 2023

Ongoing revenue growth

- Purcari and Crama Ceptura performing strong, with Purcari leading the growth by 31% YoY.
- Sales of newly added Angel's Estate incorporated in the 9M accounts, representing 3% of total sales.
- Solid consumption in Romania, growing 37% 9M'23 YoY.
- Ongoing soft demand in China, reflecting broader market weakness

- EBITDA at RON 72.2m and Net Profit at RON 43.8m, delivering a 19% and 24% growth in 9M YoY.
- EBITDA margin at 29% and Net Profit margin at 17%, above guidance.
- Expect further easing of COGS pressure in 4Q23, on lower packaging costs and decrease share of expensive 2020-2021 bulk wine in total volumes.
- Pressure on margins due to higher financing costs, higher depreciation from Capex executed in prior periods.

Active IR agenda

- #4 best performing among companies in BET index, with +56% increase YTD¹.
- High liquidity of WINE share relative to market cap; maintained in FTSE Global Micro Cap Index as of August 2023 review.
- Paid dividend of 0.55 RON/share, with a 6% yield on announcement date. Ex-date on July 28th, 2023.
- Next events: Virtual SEE DAY, by Raiffeisen Bank International, on November 21; WOOD's Winter Wonderland EMEA Conference, Prague, on December 7-8;

Developments at the latest added businesses

- Ongoing improvements for Ecosmart, contributing at the Group level with RON 22.4 m in revenue, RON 2.2m in EBITDA and RON 0.9m in Net profit, still having plenty room for profitability improvements
- Angel's Estate contributing with 3% to the total Group sales, still negative net income though. Successfully implemented the first phase of the turning around plan: doubled the harvest yields, restructuring brand portfolio, re-negotiating commercial terms, introduced new Purcari SKUs to the Bulgarian market.

- Gross margin at 41%, on higher packaging prices YoY and still meaningful share of expensive bulk from 2020-2021 vintages. Gross margin for 3Q23 improved by 1.6pp vs. 2Q23 and the trend expected to continue, on lower packaging costs and lower share of expensive bulk passing through the P&L.
- Marketing and selling expenses at 12% of revenue; +46% in 9M YoY, as 2022 marketing and selling activities were disproportionately shifted to Q4, due to uncertainties of the war in Ukraine. Active marketing agenda to support ambitious sales plan.
- Maintained G&A expenses at 11% of revenue. G&A +24% 9M YoY on expenses related to newly incorporated entities, i.e. additional Amortization of Intangible Assets related to the valuation of Angel's Estate and Ecosmart, depreciation from new CAPEX, salary cost increases, including new FTEs, travelling expenses and higher local taxes.
- 9M'23 EBITDA up by 19% to RON 72.2 million with a 29% margin, above the guidance. 3Q EBITDA margin at 30%, highest among other quarters in 2023.

2 Strong 2023 results, amid low harvest worldwide

Good 2023 harvest¹

Own harvest and 3rd party purchases of grapes, million kg

Comments

- Strong own harvest in unfavorable weather conditions of moderate rains and heat waves just before harvesting.
- Fulfilling required stocks from 3rd party purchases; favorable price environment to positively influence future margins.
- Irrigation system functional at Purcari Winery vineyards as of July 1st 2022, proved its efficiency. Delivering high quality grapes and volumes amid difficult weather conditions. Irrigation system roll out at Cuza Vineyards (Bostavan) planned for 2024.
- World wine production² volume expected to be the smallest in the last 60 years. Sharp decrease in 2023 vs. weak 2022 harvest in Spain -14%, Italy -12%, Greece -45%. Romania and Bulgaria leading the growth by 15% and +7%.
- Smaller global harvest, may create a better pricing environment for producers like Purcari.
